SUMMARY

I am a second-year Computer Science undergraduate at IIT (University of Westminster) with a strong interest in **Full Stack Development, Mobile Application Development**. I am motivated to build scalable **real-world systems** and gain **hands-on industry experience**. I am passionate about using modern technologies to solve practical problems while continuously learning and improving my skills in software engineering.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java

Frontend: React, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express, Spring Boot

Databases: MongoDB, MySQL

Tools & Infrastructure: Git, GitHub Actions, Docker, Linux, Figma, Adobe Photoshop

SKILLS

- Design Thinking
- Front End Coding
- Problem-Solving
- Project Management
- Strong Communication
- Quick Learning

FEATURED PROJECTS

QuickShow — Full Stack Movie Ticket Booking App (MERN Stack)

github.com/kavish258/Full-Stack-Movie-Ticket-Booking-App

- Developed a full-stack movie ticket booking system using **MongoDB, Express, React and Node.js**
- Implemented secure user authentication with multi-session support using Clerk.
- Enabled users to browse movies, select seats, and book tickets with real-time updates.
- Built an admin dashboard to manage movies, bookings, and system operations.
- Integrated background job processing using Inngest for email notifications (confirmations and reminders).
- Designed the system to handle failed payments by temporarily reserving seats and releasing them automatically.
- **Tech Stack:** MongoDB, Express, React, Node.js, Clerk, Inngest.

Full-Stack-E-Commerce-App

github.com/kavish258/Full-Stack-E-Commerce-App

- Developed a full stack e-commerce web application using Next.js, React, and Node.js.
- Implemented user authentication using Clerk.
- Integrated **smooth animations, interactive UI elements**, and **clean design** for enhanced user experience
- Built RESTful APIs and handled backend logic within Next.js.
- Integrated MongoDB database to manage products, users, and orders.
- Developed shopping cart functionality for adding and managing products.
- **Tech Stack:** React.js, Next.js, JavaScript, HTML5, Tailwind CSS, Node.js, MongoDB, Clerk

Modern Personal Portfolio Website

github.com/kavish258/Modern-Personal-Portfolio

- Developed a modern and fully responsive personal portfolio website to showcase projects and skills.
- Implemented reusable components and structured layouts using a component-based architecture
- Integrated **smooth animations, interactive UI elements**, and **clean design** for enhanced user experience
- Optimized performance and ensured cross-device compatibility across different screen sizes
- **Tech Stack:** React, JavaScript, HTML, Tailwind CSS

TECHNICAL MINI PROJECTS

MEDNOVA — First Year Web Development Group Project

github.com/kavish258/Mednova-Health-Website-Group-Project

- Developed a static healthcare website as a coursework project using **HTML, CSS, and JavaScript**
- Focused on webpage structure, styling, and basic client-side interactivity.
- Ensured responsive design and smooth user experience across different devices
- **Tech Stack:** HTML, CSS, JavaScript

Responsive Coffee Website

github.com/kavish258/Responsive-Coffee-Website

- Developed a responsive website for a coffee brand using modern web design principles
- Focused on clean layout, attractive visuals, and smooth navigation for better user experience.
- Ensured compatibility across different screen sizes and devices.
- **Tech Stack:** HTML, CSS, JavaScript

EDUCATION

BSc (Hons) Computer Science

Informatics Institute of Technology (affiliated with the University of Westminster)

2025 – Ongoing

G.C.E Advanced Level (2022)

Mathematics, Physics, Chemistry
Central College, Kuliyaipitiya

CERTIFICATIONS

Foundation Certificate in Computing

Informatics Institute of Technology

2025

Diploma in Information Technology

Wayamba University of Sri Lanka

2025 – Ongoing

Adobe Photoshop (2023-2024)

Advanced Course
